

PROFILE

(CUSTOMS CLEARING AGENTS ASSOCIATION OF MYANMAR)

HISTORICAL BACKGROUND

Myanmar economy rapidly expanded in the 1980s, Largely due to the huge growth in the nation's import and export sectors, electronics, agriculture, furniture and other manufacturing segments relied on the movement of goods, through port and airport as well as throughout the country and region as a result of Government encouragement and co-operation.

As a result, the Customs Clearance industry took on a more vital and active role, but the speed of its expansion created intense competition as well as enormous growth of vast market. Many felt the industry lacked direction, as the industry was unregulated and had no controlling body to ensure Customs Clearance operated according to international standards. To confront the problems facing the industry at this time, a group of Customs Clearing Agents gathered together and finally decided to form an association that would benefit the entire sector.

During 1984, Myanmar started the practice of H.S Code. Thus; the Director General of Myanmar Customs Department a member of this original group initiated proposal for the formation of a Customs Clearing Agents' association, which was submitted to the Ministry of Commerce. With On 1997/98 the Customs Clearing Agents, Association of Myanmar was officially inaugurated.

After CCAAM had been founded, the original members invited other Agents to join the association, and a general meeting was called to elect the first Board of Directors. At this initial assembly, the President was chosen as CCAAM with 17 Directors joining him on the board. The original board remained in office for two years, at which time a new Board of Directors was elected.
